

Executive Panel Discussion:

Examining security challenges through the CISO lens

Moderated by Matt Tett, Managing Director | Enex TestLab

Security challenges through the CISO lens

What exactly does cyber resilience look like, and what does it take to make it effective?

Alert fatigue in cybersecurity: What are the key proven steps to eliminate this?

Disruptive Cloud Technologies: How do CISOs manage the cybersecurity impacts?

Executive visibility: What effective ways can CISOs measure the value of security success and communicate security awareness to the board and communicate security awareness to the board?
